

Hello you all!

This summer we, a group of volunteers, founded refugees welcome [Bonn]. Our cause is supporting you in your every day-lives, e.g. on a trip to the authorities, when visiting a doctor or helping you problems, which occur during your stay in Germany.

That is why we want to hold a meeting once a month, which anyone can join, who is interested in working with refugees. The meeting point will be the cultural center Kult 41, which is near central station. There we can sit, talk, enjoy a drink, listen to music, but also plan an organize. Through this we hope establish a connection between you, us and people, who work in refugee organizations or people, who just want to help. As well, this monthly evening shall give you the possibility of self-organization.

For this plan to work, we cannot do without you! Please join our first meeting and tell us, whether you are interested in meeting up with us once a month, what matters you want to talk about and what kind of support you need.

Our first organizational meeting will take place on 5th December, 19.00/7pm.
Whoever wants to join is invited!
